# Module Learning Manual (Syllabus)

Bachelor of Science in Applied Psychology

[www.scuec.edu.cn](http://www.scuec.edu.cn)

致后来者：

第一，这本课程描述中的课程名是本人将成绩单自己翻译后的命名，之所以没有使用学校官方打印的英文成绩单是因为上面格式错误和拼写错误我个人接受不了。所以后来者在使用这份课程描述时需要注意课程名保持一致，有些地方该修改就修改。

第二，这本课程描述中的模块划分也是本人基于自己的理解对课程进行的归类，所以后来者也可能需要结合自身需求和申请学校进行有侧重的调整，万不可生搬硬套。不过这里需要吐槽的是，我校的学分和课时的对应关系是比较混乱的，不过有一个原则，就是至少 16 个课时对应 1 学分。注意是 **classroom hour 课时**，不是 study hour 学时，这一点申请欧陆的后辈们需要注意。

第三，这个课程描述是本人基于自己所选的课程进行编纂的，必然有些选修课我修了各位没有修（比如心理咨询过程与训练），或者有些选修课各位修了我没有选（比如精神分析导论），在或者教务那边有些课 20 级没有开（比如某个人的新时代思想），这些都需要各位万分仔细，检查修改的。

第四，我一直认为心理学毕业生想要不沦为教育学或者马院的那种人牙子江湖专业，只有积极学习计算认知科学和认知神经科学这种硬核的方向，即使要走咨询或者临床，亦要积极争取处方权，丰满自身羽翼。水一水的过程很舒服，但是终究没有立命的本事，这是我们所需要面临的。祝各位顺利。本人浅薄地认为，非自然科学的心理学=不学无术。

第五，有些院校课程需要各位去把封面和前几页盖章，我当时是将目录页前的部分打印下来去学院和教务盖了的，之后扫描了再作图片插进去，这样的 pdf 能接着用目录的导航栏，看着工整些。

不管怎么说，还是希望各位顺利申请到自己心仪的去处。当初自己搞申请的时候手搓英文成绩单和 60 多页课程描述头直接大了。看不惯之前申请出国的人没分享这东西的，于是自己做完了就传 github 供各位使用了（这里求各位有乐意的点个收藏满足一下个人的虚荣心）。不过还是需要说一句：**课程描述的具体内容可能还是需要各位根据自身情况和目标院校的特色进行有侧重的修改!!!! 万不可生搬硬套，这个文件仅供帮助各位完成地基手脚架而已!!!! 万望各位注意，切莫尽信书不如无书!!!!**

最后，本人申请的是瑞典的高校（因为要的文件少，省事，申请费还便宜）如果其他同学需要帮助也可以联系：[harmuorwork@qq.com](mailto:harmuorwork@qq.com)。祝各位顺利！

程诚柏然

2024. 10. 17

## General information and guidelines for module manuals

1. Theoretical Courses: At least 16 Classroom Hours of coursework are required for 1 Chinese Credit.
2. Practical Courses: At least 1 Practice Week is required for 1 Chinese Credit.
3. Graduation Project: Typically lasts 10 to 14 weeks, generally worth 10 to 14 Chinese Credits.
4. Entrepreneurship Credits (Start a Magical Entrepreneurial Journey): 1 Chinese Credit for every 16 Classroom Hours of coursework.
5. Innovation Credits: Reward Chinese Credits, not counted by Classroom Hours.

### Table of Hours and Credits

Type	Module	Classroom hours / Practice Weeks	Chinese Credits	ECTS
Psychology Courses	Basic Knowledge	292 hours	18	27
	Statistics and Methods	252 hours & 2 weeks	17	25.5
	Writing	80 hours	4	6
	Cognitive Science	244 hours	14	21
	Work and Organization	136 hours	7	10.5
	Psychological Counseling	180 hours	9	13.5
	School Psychological Health	88 hours & 2 weeks	6	9
	Practice and Internship	16 hours & 10 weeks	10.5	15.75
	Graduation Project	10 weeks	10	15
Non-Psychology Courses	Military and Sports	194 hours	8	12
	Social General Knowledge	344 hours	19	28.5
	English Learning	172 hours	10	15
	Innovation and Entrepreneurship	32 hours	5	7.5
	Others	408 hours	24	36

Type	Classroom hours / Practice Weeks	Chinese Credits	ECTS
Psychology Courses	1288 hours & 24 weeks	95.5	143.25
Non-Psychology Courses	1150 hours	66	99
Total	2438 hours & 24 weeks	161.5	242.25

*Note: Innovation credits are not included in the calculation of course hours.*

## 学分学时对应说明

1. 理论课程：至少每 16 课时对应 1 学分。
2. 实践类课程：至少每 1 个实践周对应 1 学分。
3. 毕业设计：通常持续 10 周 ~ 14 周，一般对应 10 ~ 14 学分。
4. 创新学分（开启神奇的创业之旅）：每 16 课时对应 1 学分。
5. 创新学分：奖励学分，无对应课堂时间。

## 学分课时关系表格

类型	模块	对应课时/实践周	学分	ECTS
心理学专业课程	基础知识模块	292 课时	18	27
	统计与方法模块	252 课时 + 2 周	17	25.5
	写作模块	80 课时	4	6
	认知科学模块	244 课时	14	21
	工作与组织模块	136 课时	7	10.5
	心理咨询模块	180 课时	9	13.5
	学校心理健康教育模块	88 课时 + 2 周	6	9
	实践与实习模块	16 课时 + 10 周	10.5	15.75
通识类课程	毕业设计	10 周	10	15
	军事与体育模块	194 课时	8	12
	通识教育模块	344 课时	19	28.5
	大学英语模块	172 课时	10	15
	创新创业模块	32 课时	5	7.5
	其他	408 课时	24	36

类型	对应课时/实践周	对应学分	ECTS
心理学专业课程	1288 课时 + 24 周	95.5	143.25
通识类课程	1150 课时	66	99
总计	2438 课时 + 24 周	161.5	242.25

注：创新学分不计入课时计算。

# 1 Psychology Courses

## 1.1 Basic Knowledge Module

**Module Summary**

Courses	Classroom Hours	Chinese Credits	ECTS
General Psychology (A)	48 hours	3	4.5
History of Psychology	48 hours	3	4.5
Developmental Psychology	48 hours	3	4.5
Social Psychology	48 hours	3	4.5
Personality Psychology	52 hours	3	4.5
Educational Psychology	48 hours	3	4.5
Total	292 hours	18	27

程诚柏然harmuorwork@qq.com

<b>Course Name</b>	<b>General Psychology (A)</b>
<b>Take In</b>	2020-2021 Semester 1
<b>Credits &amp; Hour</b>	3 Chinese Credits, 4.5 ECTS, 48 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course provides a comprehensive overview of the major concepts, theories, and research findings in psychology.</li> <li>2. Students will explore topics such as the biological bases of behavior, sensation and perception, learning and memory, cognition, development, personality, psychological disorders, and social behavior.</li> <li>3. The course emphasizes applying psychological principles to everyday life and encourages critical thinking about human behavior and mental processes.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Understand the major concepts and theories in psychology.</li> <li>● Develop an appreciation for the scientific methods used in psychological research.</li> <li>● Explore the biological, psychological, and social factors that influence behavior and mental processes.</li> <li>● Apply psychological principles to understand and address real-world issues.</li> <li>● Enhance critical thinking and analytical skills through the study of psychological phenomena.</li> </ul>
<b>Study Materials</b>	Zimbardo, P., Johnson, R. L., & McCann, V. (2017). <i>Psychology: Core concepts</i> (7th ed., Qian, J., & Huang, J., Trans.). Beijing United Publishing Company. ISBN: 9787559612151
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Assignment: 20%</li> <li>● Midterm Exam: 10%</li> <li>● Final Exam: 60%</li> </ul>

<b>Course Name</b>	<b>History of Psychology</b>
<b>Take In</b>	2021-2022 Semester 1
<b>Credits &amp; Hour</b>	3 Chinese Credits, 4.5 ECTS, 48 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course explores the historical development of psychological thought and practice from ancient times to the present.</li> <li>2. Key topics include the philosophical roots of psychology, the rise of experimental psychology, the development of psychoanalysis, behaviorism, humanistic psychology, cognitive psychology, and contemporary trends in psychological research and practice.</li> <li>3. Students will examine key figures, theories, and movements that have shaped the field of psychology. The course emphasizes understanding the context in which psychological ideas emerged and how they have evolved over time.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Trace the historical development of major psychological theories and practices.</li> <li>● Identify key figures and their contributions to the field of psychology.</li> <li>● Analyze the impact of historical events on the evolution of psychology.</li> <li>● Develop critical thinking skills by evaluating historical and contemporary psychological theories.</li> </ul>
<b>Study Materials</b>	Ye, H. (Ed.). (2009). <i>History of Psychology</i> . East China Normal University Press. ISBN: 9787561770399
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● In-Class Quizzes: 10%</li> <li>● Assignment: 30%</li> <li>● Midterm Exam: 10%</li> <li>● Final Exam: 50%</li> </ul>

<b>Course Name</b>	<b>Developmental Psychology</b>
<b>Take In</b>	2021-2022 Semester 1
<b>Credits &amp; Hour</b>	3 Chinese Credits, 4.5 ECTS, 48 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course provides an in-depth examination of human development from conception through old age, covering key topics about prenatal development, infancy, childhood, adolescence, adulthood, and aging.</li> <li>2. The course highlights key theories and research findings (e.g., Piaget's stages of cognitive development, Bowlby's attachment theory, Baumrind's parenting styles, Sternberg's triarchic theory of intelligence, and Erikson's eight stages of psychosocial development).</li> <li>3. Students will explore the physical, cognitive, social, and emotional changes throughout the lifespan, emphasizing the influence of genetics, environment, and culture.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Understand the major theories and concepts in developmental psychology.</li> <li>● Explore the stages of human development from prenatal to old age.</li> <li>● Analyze the physical, cognitive, social, and emotional changes across the lifespan.</li> <li>● Examine the impact of genetics, environment, and culture on development.</li> </ul>
<b>Study Materials</b>	<ol style="list-style-type: none"> <li>1. Lin, C. (2018). Developmental Psychology (3rd ed.). People's Education Press. ISBN: 9787107323409</li> <li>2. Lei, L. (2017). Developmental Psychology (3rd ed.). China Renmin University Press. ISBN: 9787300241340</li> </ol>

## 1.2 Statistics and Methods Module

### Module Summary

Courses	Classroom Hours/Practice Weeks	Chinese Credits	ECTS
Psychological Statistics	48 hours	3	4.5
Statistical Analysis Operation-SPSS	36 hours	2	3
Research Methods of Psychology	48 hours	3	4.5
Research Methods Practice in Psychology	2 weeks	2	3
Psychometrics	60 hours	3.5	5.25
Experimental Psychology	60 hours	3.5	5.25
Total	252 hours & 2 weeks	17	25.5

程诚柏然harmuorwork@qq.com

<b>Course Name</b>	<b>Psychological Statistics</b>
<b>Take In</b>	2021-2022 Semester 1
<b>Credits &amp; Hour</b>	3 Chinese Credits, 4.5 ECTS, 48 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course provides an introduction to the fundamental descriptive and inferential statistical methods utilized in the behavioral and social sciences.</li> <li>2. The curriculum covers topics such as data organization, measures of central tendency and variability, hypothesis testing, and a variety of parametric and nonparametric significance tests, including t-tests, regression, correlation, ANOVA, MANOVA, and chi-square analysis.</li> <li>3. Students will explore the connections between theoretical concepts, statistical techniques, and research methodologies to determine the appropriate statistical tests for data analysis and to draw objective conclusions about research questions in the psychology sciences.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Understand and apply fundamental descriptive and inferential statistical methods in the context of behavioral and social sciences.</li> <li>● Organize and interpret data using measures of central tendency, variability, and correlation.</li> <li>● Conduct and analyze hypothesis tests, including t-tests, ANOVA, MANOVA, and chi-square tests, to draw valid conclusions and</li> <li>● Integrate theoretical knowledge with statistical techniques to identify appropriate methods for data analysis.</li> <li>● Develop critical thinking skills to evaluate research findings and their implications in the social sciences.</li> </ul>
<b>Study Materials</b>	Cohen, B. H. (2011). <i>Explaining psychological statistics</i> (3rd ed.). East China Normal University Press. ISBN: 9787561782057.
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● In-class quizzes: 10%</li> <li>● Final exam: 60%</li> <li>● Class presentations: 10%</li> <li>● Assignment: 10%</li> </ul>

<b>Course Name</b>	<b>Statistical Analysis Operation-SPSS</b>
<b>Take In</b>	2021-2022 Semester 1
<b>Credits &amp; Hour</b>	2 Chinese Credits, 3 ECTS, 36 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course focuses on the practical application of statistical analysis using SPSS or R software.</li> <li>2. Students will learn to manage and analyze data sets, perform various statistical tests, and interpret the results within the context of psychology</li> <li>3. Key topics include data entry and manipulation, descriptive statistics, inferential statistics, and advanced statistical techniques such as t-test, regression, correlation, SEM, ANOVA and MANOVA.</li> <li>4. Students with strong academic performance are encouraged to use R for completing course practice</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Master the use of SPSS software for data management and statistical analysis.</li> <li>● Perform and interpret descriptive and inferential statistical tests using SPSS or R.</li> <li>● Apply advanced statistical techniques to real-world data sets.</li> <li>● Develop the ability to critically evaluate and report statistical findings in a clear and concise manner.</li> <li>● Integrate theoretical knowledge with practical skills to solve research problems in the social sciences.</li> </ul>
<b>Study Materials</b>	<ol style="list-style-type: none"> <li>1. Computer laboratory equipped with SPSS and R software</li> <li>2. Cohen, B. H. (2011). <i>Explaining psychological statistics</i> (3rd ed.). East China Normal University Press. ISBN: 9787561782057.</li> <li>3. Wickham, H., &amp; Grolemund, G. (2018). <i>R for data science: Visualize, model, transform, tidy, and import data</i> (Chen, G., Trans.). People's Posts and Telecommunications Press. ISBN: 9787115486394.</li> </ol>
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Course Practice Assignments: 30%</li> <li>● In-Class Quizzes: 10%</li> <li>● Final Exam: 50%</li> </ul>

<b>Course Name</b>	<b>Research Methods of Psychology</b>
<b>Take In</b>	2022-2023 Semester 1
<b>Credits &amp; Hour</b>	3 Chinese Credits, 4.5 ECTS, 48 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course provides an in-depth exploration of the fundamental research methods used in psychology.</li> <li>2. Students will learn about various research designs, data collection techniques, and ethical considerations in psychological research.</li> <li>3. Key topics include research ethics experimental and non-experimental designs, survey methods, observational studies, and qualitative research.</li> <li>4. The course emphasizes the importance of critical thinking and scientific reasoning in the interpretation of research findings.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Understand the principles and practices of various research methods in psychology.</li> <li>● Design and conduct psychological research using appropriate methodologies.</li> <li>● Analyze and interpret data collected from psychological studies.</li> <li>● Evaluate the ethical implications of research practices.</li> <li>● Develop the ability to critically assess research literature in psychology.</li> </ul>
<b>Study Materials</b>	<ol style="list-style-type: none"> <li>1. Shu, H., &amp; Zhang, Y. (2008). <i>Research methods in psychology</i>. People's Education Press. ISBN: 9787107210600.</li> <li>2. <b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Class Presentations: 5%</li> <li>● Research Proposal: 20%</li> <li>● Final Exam: 50%</li> <li>● Assignment: 15%</li> </ul>

<b>Course Name</b>	<b>Research Methods Practice in Psychology</b>
<b>Take In</b>	2022-2023 Semester 1
<b>Credits &amp; Hour</b>	2 Chinese Credits, 3 ECTS, 2 Practice Weeks
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course offers hands-on experience in applying research methods in psychology. Students will engage in practical exercises that involve designing studies, collecting data, and analyzing results.</li> <li>2. The course aims to bridge the gap between theoretical knowledge and practical application, providing students with the skills necessary to conduct independent research.</li> <li>3. Key activities include conducting experiments, administering surveys, and performing qualitative analyses.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Apply research methods in practical settings.</li> <li>● Develop proficiency in data collection and analysis techniques.</li> <li>● Conduct experiments and surveys to gather psychological data.</li> <li>● Interpret and report research findings accurately.</li> <li>● Enhance problem-solving skills through real-world research practice.</li> </ul>
<b>Study Materials</b>	<ol style="list-style-type: none"> <li>1. Computer laboratory equipped with SPSS and R software.</li> <li>2. Shu, H., &amp; Zhang, Y. (2008). <i>Research methods in psychology</i>. People's Education Press. ISBN: 9787107210600.</li> </ol>
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Course Paper: 60%</li> <li>● Survey Design: 10%</li> <li>● Interview Assignment: 10%</li> <li>● Experimental Design: 20%</li> </ul>

<b>Course Name</b>	<b>Psychometrics</b>
<b>Take In</b>	2021-2022 Semester 2
<b>Credits &amp; Hour</b>	3.5 Chinese Credits, 5.25 ECTS, 60 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course provides a comprehensive introduction to the field of psychometrics, focusing on the theory (e.g., Classical Test Theory, Item Response Theory, Structural Equation Modeling).</li> <li>2. Key topics include Principles of test construction, reliability and validity of psychological tests, Item analysis and test item quality, standardization and norming processes, factor analysis and its applications in test development, ethical considerations in psychological testing, practical scale development and validation</li> <li>3. In addition to theoretical learning, students will work in groups to develop their own psychological scales that demonstrate acceptable levels of discrimination, reliability, and validity.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Understand the fundamental concepts and theories in psychometrics.</li> <li>● Learn the principles and methods of test construction.</li> <li>● Evaluate the reliability and validity of psychological tests.</li> <li>● Conduct item analysis to assess the quality of test items.</li> <li>● Develop practical skills in creating and validating psychological scales.</li> </ul>
<b>Study Materials</b>	<ol style="list-style-type: none"> <li>1. Aiken, L., &amp; Groth-Marnat, G. (2011). <i>Psychological testing and assessment</i> (Zhang, H., &amp; Zhao, S., Trans.). China Renmin University Press. ISBN: 9787300131795.</li> <li>2. Dai, H., &amp; Zhang, F. (2018). <i>Psychological and educational measurement</i> (4th ed.). Jinan University Press. ISBN: 9787566823700.</li> </ol>
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Group Project (Scale Development): 30%</li> <li>● Midterm Exam: 10%</li> <li>● Final Exam: 50%</li> </ul>

<b>Course Name</b>	<b>Experimental Psychology</b>
<b>Take In</b>	2021-2022 Semester 2
<b>Credits &amp; Hour</b>	3.5 Chinese Credits, 5.25 ECTS, 60 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course provides an in-depth examination of the principles and methods used in experimental psychology. The course covers key topics such as research ethics, control of variables, data collection techniques.</li> <li>2. Key topics also include experimental design in psychophysics, Attention, Perception, Memory, and Emotion.</li> <li>3. Students will learn Stroop, N-back, Odd-ball Paradigm Memory Span Task, Schulte Grid Test, and Ultimatum Game, etc.</li> <li>4. Emphasis is placed on developing critical thinking and scientific reasoning skills through hands-on laboratory work and group projects.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Understand the fundamental principles of experimental design in psychology.</li> <li>● Develop skills in designing and conducting psychological experiments.</li> <li>● Learn to control variables and minimize biases in experimental research.</li> <li>● Interpret and report experimental findings in a clear and concise manner.</li> </ul>
<b>Study Materials</b>	<ol style="list-style-type: none"> <li>1. Computer laboratory equipped with E-Prime software.</li> <li>2. Kantowitz, B. H., Roediger, H. L. III, &amp; Elmes, D. G. (2010). Experimental psychology: Understanding psychological research (9th ed., Guo, X., &amp; Yang, Z., Trans.). East China Normal University Press. ISBN: 9787561776186.</li> <li>3. Guo, X. (2019). Experimental psychology. People's Education Press. ISBN: 9787107335211.</li> </ol>
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Laboratory Reports: 15%</li> <li>● Course Paper: 15%</li> <li>● Assignment: 10%</li> <li>● Final Exam: 50%</li> </ul>

### 1.3 Writing Module

**Module Summary**

Courses	Classroom Hours	Chinese Credits	ECTS
Psychological Literature Retrieval	36 hours	2	3
Academic Writing in Psychology	44 hours	2	3
Total	80 hours	4	6

程诚柏然harmuorwork@qq.com

<b>Course Name</b>	<b>Psychological Literature Retrieval</b>
<b>Take In</b>	2021-2022 Semester 2
<b>Credits &amp; Hour</b>	2 Chinese Credits, 3 ECTS, 36 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course focuses on training students in literature search skills, teaching them how to use various literature search tools such as CNKI, Wanfang Data, Web of Science, SpringerLink, and Google Scholar.</li> <li>2. Students will learn effective strategies for finding and evaluating scientific research papers, as well as how to write their own research papers.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Develop proficiency in using major literature search tools.</li> <li>● Learn effective strategies for finding and evaluating scientific research papers.</li> <li>● Understand the structure and components of scientific research papers.</li> <li>● Enhance skills in writing and presenting scientific research.</li> </ul>
<b>Study Materials</b>	<ol style="list-style-type: none"> <li>1. Wang, X. (2017). <i>Literature Information Retrieval and Thesis Writing</i> (6th ed.). Shanghai Jiao Tong University Press. ISBN: 9787313182340.</li> <li>2. Library of SCMZU (<a href="http://www.lib.scu.ec.edu.cn/node/420.jsp">http://www.lib.scu.ec.edu.cn/node/420.jsp</a>)</li> </ol>
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Literature Search Exercises: 20%</li> <li>● Course Report: 20%</li> <li>● Computer-based Exam: 50%</li> </ul>

<b>Course Name</b>	<b>Academic Writing in Psychology</b>
<b>Take In</b>	2022-2023 Semester 2
<b>Credits &amp; Hour</b>	2 Chinese Credits, 3 ECTS, 44 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course is tailored towards writing academic papers in psychology, preparing students for their graduation thesis.</li> <li>2. It covers the principles of academic writing, including structure, style, and citation practices, with a focus on psychological research.</li> <li>3. Students will learn how to develop a clear and coherent argument, integrate sources effectively, and adhere to ethical standards in writing.</li> <li>4. The course also emphasizes the importance of revision and peer feedback in the writing process.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Understand the principles of academic writing in psychology.</li> <li>● Be prepared for the graduation project in the future.</li> <li>● Develop skills in structuring and writing academic papers, including abstracts, introductions, literature reviews, methods, results, discussions, and conclusions.</li> <li>● Learn proper citation practices and how to avoid plagiarism, using APA style.</li> </ul>
<b>Study Materials</b>	Kail, R. V., Jr. (2014). Scientific Writing for Psychology: Lessons in Clarity and Style. SAGE Publications Inc. ISBN: 9781483353043.
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Class Presentations: 20%</li> <li>● Academic Paper: 70%</li> </ul>

## 1.4 Cognitive Science Module

**Module Summary**

Courses	Classroom Hours	Chinese Credits	ECTS
Cognitive Psychology	52 hours	3	4.5
Anatomical Physiology	48 hours	3	4.5
Physiological Psychology	52 hours	3	4.5
Cognitive Neuroscience	44 hours	2	3
Abnormal Psychology	48 hours	3	4.5
Total	244 hours	14	21

程诚柏然harmuorwork@qq.com

<b>Course Name</b>	<b>Cognitive Psychology</b>
<b>Take In</b>	2022-2023 Semester 1
<b>Credits &amp; Hour</b>	3 Chinese Credits, 4.5 ECTS, 52 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course delves into the study of mental processes about human's cognition and behavior. Key topics include attention, perception, memory systems, language processing, problem-solving strategies, decision-making processes, and cognitive development.</li> <li>2. Students will learn about various theories such as Filter Theory, Attenuation Theory, Late Selection Theory, Modal Model of Memory and Working Memory Theory, Hierarchical Network Model and Spreading Activation Model, Dual Coding Theory, and Dual-Process Theory and Prospect Theory, etc.</li> <li>3. Students will explore how these cognitive processes are studied and applied in real-world contexts, emphasizing the connection between research and everyday experiences.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Understand the major theories and concepts in cognitive psychology.</li> <li>● Analyze the cognitive processes involved in perception, memory, and language.</li> <li>● Explore the mechanisms of problem-solving and decision-making.</li> <li>● Examine the development of cognitive abilities across the lifespan.</li> </ul>
<b>Study Materials</b>	<ol style="list-style-type: none"> <li>1. Computer laboratory equipped with E-Prime software.</li> <li>2. Goldstein, E. B. (2020). <i>Cognitive Psychology: Connecting Mind, Research, and Everyday Experience (5th ed.)</i>. China Light Industry Press. (M. Zhang, Trans.). Wan Xin Psychology. ISBN: 9787518431007.</li> </ol>
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● E-Prime Program: 10%</li> <li>● Assignment: 30%</li> <li>● Final Exam: 50%</li> </ul>

<b>Course Name</b>	<b>Anatomical Physiology</b>
<b>Take In</b>	2021-2022 Semester 1
<b>Credits &amp; Hour</b>	3 Chinese Credits, 4.5 ECTS, 48 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course provides a comprehensive study of the structure and function of the human body, focusing on key topics such as neuron and synaptic signal transmission, neuromuscular coupling, and the structure and function of the retina, eardrum, spinal cord, brainstem, midbrain, medulla, thalamus, cerebellum, basal ganglia, cerebrum, and striatum.</li> <li>2. Students will explore how these anatomical structures contribute to physiological processes, emphasizing the integration of structure and function.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Understand the major anatomical structures and their physiological functions of central nervous system.</li> <li>● Analyze the mechanisms of neuron and synaptic signal transmission.</li> <li>● Explore the structure and function of various parts of the nervous system.</li> <li>● Examine the integration of anatomical structures in physiological processes.</li> </ul>
<b>Study Materials</b>	<ol style="list-style-type: none"> <li>1. Zuo, M. (Ed.). (2015). <i>Human Anatomy and Physiology (3rd ed.)</i>. Higher Education Press. ISBN: 9787040418927.</li> <li>2. An Anatomical Brain Model &amp; <a href="http://brainfacts.org">3D Brain (brainfacts.org)</a></li> </ol>
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Assignment: 10%</li> <li>● Class Presentation: 10%</li> <li>● Midterm Exam: 20%</li> <li>● Final Exam: 50%</li> </ul>

<b>Course Name</b>	<b>Physiological Psychology</b>
<b>Take In</b>	2021-2022 Semester 2
<b>Credits &amp; Hour</b>	3 Chinese Credits, 4.5 ECTS, 52 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course explores the neurobiological foundations of psychological functions such as sensation, perception, emotion, learning and memory, sleep, language, attention, and motor control.</li> <li>2. The course also covers Hebb's Synaptic Hypothesis, Long-Term Potentiation, Long-Term Depression, Trisynaptic Circuit of the Hippocampus, and Working Memory Model, etc.</li> <li>3. Students will investigate the mind-brain and mind-body relationships.</li> <li>4. The course includes practical behavioral experiments, requiring students to write lab reports as part of the assessment.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Understand the neurobiological basis of various psychological functions.</li> <li>● Analyze the relationship between the brain and behavior.</li> <li>● Explore the mechanisms underlying vision, perception, emotion, learning, memory, sleep, language, attention, and motor control.</li> <li>● Conduct and report on behavioral experiments.</li> <li>● Develop skills in designing and implementing E-Prime experimental programs.</li> </ul>
<b>Study Materials</b>	<ol style="list-style-type: none"> <li>1. Gazzaniga, M. S., Ivry, R. B., &amp; Mangun, G. R. (2011). Cognitive Neuroscience: The Biology of the Mind. China Light Industry Press. (X. Zhou &amp; D. Gao, Trans.). Wan Xin Psychology. ISBN: 9787501978564.</li> <li>2. Shen, Z., &amp; Lin, S. (2016). Physiological Psychology (3rd ed.). Peking University Press. ISBN: 9787301248218.</li> <li>3. An Anatomical Brain Model &amp; <a href="http://brainfacts.org">3D Brain (brainfacts.org)</a></li> <li>4. Computer laboratory equipped with E-Prime software.</li> </ol>
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Laboratory Reports: 15%:</li> <li>● Group Discussions: 5%</li> <li>● Group Project: 20%</li> <li>● Final Exam: 50%</li> </ul>

<b>Course Name</b>	<b>Cognitive Neuroscience</b>
<b>Take In</b>	2022-2023 Semester 2
<b>Credits &amp; Hour</b>	2 Chinese Credits, 3 ECTS, 44 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course covers the primary research methods and content in cognitive neuroscience, including eye-tracking, event-related potentials (ERP), EEG studies, task-based fMRI, resting-state fMRI, and near-infrared spectroscopy.</li> <li>2. It also introduces the application of machine learning and deep learning in psychological research (e.g., Decision Trees, Random Forest, Support Vector Machine, and Naive Bayes, etc.).</li> <li>3. Students will learn to design behavioral experiments suitable for cognitive neuroscience research, develop research plans based on recent literature, and conduct group behavioral experiments, culminating in a comprehensive research report.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Understand the major research methods in cognitive neuroscience.</li> <li>● Analyze the neural basis of cognitive functions such as vision, perception, emotion, learning, memory, sleep, language, attention, and motor control.</li> <li>● Explore the relationship between mind and brain, and mind and body.</li> <li>● Develop skills in designing and conducting behavioral experiments.</li> </ul>
<b>Study Materials</b>	<ol style="list-style-type: none"> <li>1. Gazzaniga, M. S., Ivry, R. B., &amp; Mangun, G. R. (2011). Cognitive Neuroscience: The Biology of the Mind. Peking University Press. ISBN: 9787301158579.</li> <li>3. Computer laboratory equipped with E-Prime software.</li> </ol>
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Course Paper: 60%</li> <li>● Attendance: 5%</li> <li>● Class Presentation: 10%</li> <li>● Group Experiment Design: 25%</li> </ul>

<b>Course Name</b>	<b>Abnormal Psychology</b>
<b>Take In</b>	2022-2023 Semester 1
<b>Credits &amp; Hour</b>	3 Chinese Credits, 4.5 ECTS, 48 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course covers the symptoms, diagnosis, causes, and treatments of various psychological disorders, including schizophrenia, anxiety disorders, eating disorders, substance abuse and dependence, psychosomatic disorders, and childhood psychological disorders.</li> <li>2. Students will learn about biomedical, cognitive-behavioral, and psychodynamic models, and the current state and challenges of mental health work in China, including ethical and legal issues.</li> <li>3. Students are allowed to obtain publicly available case or symptom information and conduct group discussions and analyses based on course materials</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Understand the major psychological disorders and their symptoms, diagnosis, causes, and treatments.</li> <li>● Analyze clinical psychological assessment and diagnostic classification methods.</li> <li>● Explore theoretical models of abnormal behavior.</li> <li>● Examine the current state and challenges of mental health work in China.</li> <li>● Develop skills in ethical and legal considerations in mental health practice.</li> </ul>
<b>Study Materials</b>	<ol style="list-style-type: none"> <li>1. Qian, M. (2006). <i>Abnormal Psychology</i>. Peking University Press. ISBN: 9787301106419</li> <li>2. American Psychiatric Association. (2015). <i>Diagnostic and Statistical Manual of Mental Disorders (5th ed.)</i>. Peking University Press. (D. Zhang, et al., Trans.). ISBN: 9787301258125</li> </ol>
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Case Report: 10%</li> <li>● Quizzes: 15%</li> <li>● Homework Assignments: 15%</li> <li>● Final Exam: 50%</li> </ul>

## 1.5 Work and Organization Module

### Module Summary

Courses	Classroom Hours	Chinese Credits	ECTS
Cognitive Psychology	52 hours	3	4.5
Anatomical Physiology	48 hours	3	4.5
Physiological Psychology	52 hours	3	4.5
Cognitive Neuroscience	44 hours	2	3
Abnormal Psychology	48 hours	3	4.5
Total	244 hours	14	21

程诚柏然harmuorwork@qq.com

<b>Course Name</b>	<b>Management Psychology</b>
<b>Take In</b>	2022-2023 Semester 2
<b>Credits &amp; Hour</b>	3 Chinese Credits, 4.5 ECTS, 48 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course explores the application of psychological principles to management practices.</li> <li>2. Key topics include leadership styles, motivation theories, team dynamics, organizational behavior, decision-making processes, conflict resolution, and workplace well-being.</li> <li>3. Students will learn about various theories such as Maslow's Hierarchy of Needs, Herzberg's Two-Factor Theory, McGregor's Theory X and Theory Y, and Vroom's Expectancy Theory.</li> <li>4. The course emphasizes the practical application of these theories to enhance management effectiveness and improve organizational outcomes.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Understand the major concepts and theories in management psychology.</li> <li>● Develop an appreciation for the psychological factors that influence management practices.</li> <li>● Explore the impact of leadership styles and motivation on employee performance.</li> <li>● Enhance critical thinking and problem-solving skills through the study of management psychology.</li> </ul>
<b>Study Materials</b>	Wang, C. (2021). <i>Management Psychology</i> . East China Normal University Press. ISBN: 9787576014785.
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Quizzes: 20%</li> <li>● Midterm Exam: 30%</li> <li>● Final Exam: 40%</li> </ul>

<b>Course Name</b>	<b>Employee Assistance Program (EAP)</b>
<b>Take In</b>	2022-2023 Semester 1
<b>Credits &amp; Hour</b>	2 Chinese Credits, 3 ECTS, 44 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course is designed to equip students with the skills and knowledge necessary to assist individuals in finding and maintaining employment.</li> <li>2. Key topics include career counseling, resume writing, interview techniques, job search strategies, workplace skills, and professional development.</li> <li>3. Students will learn about various employment assistance theories and practices, and how to apply them effectively to support job seekers.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Understand the major concepts and theories in employment assistance.</li> <li>● Develop skills in career counseling and job search strategies.</li> <li>● Learn effective resume writing and interview techniques.</li> <li>● Explore ways to enhance workplace skills and professional development.</li> </ul>
<b>Study Materials</b>	Hong, W. (2018). <i>Psychological Aid Tutorial</i> (2nd ed.). People's Medical Publishing House. ISBN: 9787117272414.
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Class Presentation: 15%</li> <li>● Course Report: 35%</li> <li>● Group Project: 40%</li> </ul>

<b>Course Name</b>	<b>Staff Encouragement</b>
<b>Take In</b>	2022-2023 Semester 1
<b>Credits &amp; Hour</b>	2 Chinese Credits, 3 ECTS, 44 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course focuses on strategies and techniques to motivate and encourage staff within an organization.</li> <li>2. Key topics include motivational theories, leadership styles, communication skills, team building, employee recognition, and creating a positive work environment.</li> <li>3. Students will learn how to apply these principles to enhance employee morale and productivity.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Understand the major concepts and theories related to staff motivation and encouragement.</li> <li>● Develop effective communication and leadership skills.</li> <li>● Explore strategies for team building and employee recognition.</li> <li>● Learn how to create and maintain a positive work environment.</li> <li>● Apply motivational principles to improve staff morale and productivity.</li> </ul>
<b>Study Materials</b>	Porter, L. W., Bigley, G. A., & Steers, R. M. (2006). Motivation and Work Behavior (X. Chen, Trans.). China Machine Press. ISBN: 9787111196747.
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Assignment: 20%</li> <li>● Group Projects: 20%</li> <li>● Course Paper: 50%</li> </ul>

## 1.6 Psychological Counseling Module

### Module Summary

Courses	Classroom Hours	Chinese Credits	ECTS
Counseling Psychology	48 hours	3	4.5
Positive Psychology	44 hours	2	3
Juvenile Abnormal Development and Rectification	44 hours	2	3
Psychological Counseling Process and Training	44 hours	2	3
Total	180 hours	9	13.5

程诚柏然harmuorwork@qq.com

<b>Course Name</b>	<b>Counseling Psychology</b>
<b>Take In</b>	2022-2023 Semester 1
<b>Credits &amp; Hour</b>	3 Chinese Credits, 4.5 ECTS, 48 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course provides an in-depth exploration of the principles and practices of counseling psychology.</li> <li>2. Key topics include therapeutic approaches, counseling techniques, ethical and professional issues, assessment and diagnosis, and the application of counseling in diverse settings.</li> <li>3. Students will learn about various counseling theories such as Cognitive-Behavioral Therapy (CBT), Person-Centered Therapy, Psychodynamic Therapy, Solution-Focused Brief Therapy, and Multicultural Counseling.</li> <li>4. The course emphasizes the development of practical skills through role-playing, case studies, and supervised practice.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <p>Understand the major theories and techniques in counseling psychology.</p> <p>Develop skills in assessment, diagnosis, and treatment planning.</p> <p>Explore ethical and professional issues in counseling practice.</p> <p>Apply counseling principles to address diverse client needs.</p> <p>Enhance interpersonal and communication skills through practical exercises.</p>
<b>Study Materials</b>	<ol style="list-style-type: none"> <li>1. Wang, S., &amp; Tian, X. (2018). <i>Consulting Psychology</i>. Science Press. ISBN: 9787030571274.</li> <li>2. Corey, G. (2022). <i>Case Approach to Counseling and Psychotherapy</i> (T. Tan, Trans.; 7th ed.). China Light Industry Press. ISBN: 9787518438457.</li> </ol>
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Course Practice Assignments: 30%</li> <li>● Class presentation: 10%</li> <li>● Final Exam: 50%</li> </ul>

<b>Course Name</b>	<b>Positive Psychology</b>
<b>Take In</b>	2022-2023 Semester 1
<b>Credits &amp; Hour</b>	2 Chinese Credits, 3 ECTS, 44 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course explores the scientific study of the strengths and virtues that enable individuals and communities to thrive.</li> <li>2. Key topics include happiness, well-being, resilience, gratitude, mindfulness, and positive relationships. Students will learn about various theories and interventions aimed at enhancing positive emotions, engagement, relationships, meaning, and accomplishment (PERMA model).</li> <li>3. The course emphasizes the application of positive psychology principles in personal and professional contexts to promote mental health and well-being.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Understand the major concepts and theories in positive psychology.</li> <li>● Explore the factors that contribute to happiness and well-being.</li> <li>● Develop skills to apply positive psychology interventions in real-life situations.</li> <li>● Enhance self-awareness and personal growth through reflective practices.</li> <li>● Foster positive relationships and community well-being.</li> </ul>
<b>Study Materials</b>	Liu, X. (2018). <i>Positive Psychology</i> (2nd ed.). China Renmin University Press. ISBN: 9787300256153.
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Assignment: 30%</li> <li>● In-Class Quizzes: 10%</li> <li>● Class Paper: 50%</li> </ul>

<b>Course Name</b>	<b>Juvenile Abnormal Development and Rectification</b>
<b>Take In</b>	2022-2023 Semester 2
<b>Credits &amp; Hour</b>	2 Chinese Credits, 3 ECTS, 44 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course examines the developmental trajectories of children and adolescents who exhibit atypical behaviors and psychological disorders.</li> <li>2. Key topics include the identification, assessment, and treatment of developmental disorders such as autism spectrum disorder, ADHD, conduct disorder, and mood disorders.</li> <li>3. Students will learn about various therapeutic approaches and intervention strategies aimed at rectifying abnormal development and promoting healthy psychological growth. The course emphasizes the importance of early detection, family involvement, and evidence-based practices.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Understand the major developmental disorders affecting children and adolescents.</li> <li>● Develop skills in the assessment and diagnosis of juvenile psychological disorders.</li> <li>● Explore therapeutic approaches and intervention strategies for abnormal development.</li> <li>● Examine the role of family, school, and community in supporting affected individuals.</li> <li>● Enhance critical thinking and problem-solving skills through case studies and practical applications.</li> </ul>
<b>Study Materials</b>	Zheng, X., & Zheng, X. (2018). <i>Abnormal Development and Health Promotion in Children and Adolescents</i> . Central China Normal University Press. ISBN: 9787562258292.
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Course Practice Assignments: 70%</li> <li>● In-Class Quizzes: 20%</li> </ul>

<b>Course Name</b>	<b>Psychological Counseling Process and Training</b>
<b>Take In</b>	2022-2023 Semester 2
<b>Credits &amp; Hour</b>	2 Chinese Credits, 3 ECTS, 44 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course provides a comprehensive overview of the counseling process, from initial client contact to termination.</li> <li>2. Key topics include establishing a therapeutic alliance, assessment and diagnosis, goal setting, intervention strategies, and ethical considerations.</li> <li>3. Students will learn about various counseling techniques and approaches, including Cognitive-Behavioral Therapy (CBT), Person-Centered Therapy, and Motivational Interviewing.</li> <li>4. The course emphasizes practical training through intern counseling, supervised practice, and case study analysis.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Understand the stages of the counseling process and the skills required at each stage.</li> <li>● Develop proficiency in assessment, diagnosis, and treatment planning.</li> <li>● Explore various counseling techniques and their applications.</li> <li>● Examine ethical and professional issues in counseling practice.</li> <li>● Enhance practical counseling skills through supervised practice and role-playing.</li> </ul>
<b>Study Materials</b>	<ol style="list-style-type: none"> <li>1. Dedicated Counseling Room for Psychological Counseling</li> <li>2. Recorded Videos of the Counseling Process</li> <li>3. Roundtable Meeting Room for Group Supervision</li> </ol>
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Verbatim Transcript: 30%</li> <li>● Group Discussion: 10%</li> <li>● Counseling Report: 50%</li> </ul>

## 1.7 School Psychological Health Module

### Module Summary

Courses	Classroom Hours/Practice Weeks	Chinese Credits	ECTS
Mental Health Education of Elementary and Middle School	2 weeks	2	3
Teaching Skill Training of School Psychological Service	44 hours	2	3
Psychological Archives Management	44 hours	2	3
Total	88 hours & 2 weeks	6	9

程诚柏然harmuorwork@qq.com

<b>Course Name</b>	<b>Mental Health Education in Elementary and Middle School</b>
<b>Take In</b>	2022-2023 Semester 2
<b>Credits &amp; Hour</b>	2 Chinese Credits, 3 ECTS, 2 Practice Weeks
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course offers a two-week working experience where students are assigned to various elementary schools in Huazhong District, Ezhou. Students are required to teach at least one class for each grade in their assigned school and conduct at least one outdoor team-building activity for at least two classes.</li> <li>2. Additionally, students are encouraged to provide psychological counseling for students exhibiting behavioral issues.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Understand the principles of mental health education for children and adolescents.</li> <li>● Develop skills in delivering mental health education and conducting team-building activities.</li> <li>● Gain practical experience in providing psychological support to students with behavioral issues.</li> <li>● Enhance communication and counseling skills through direct interaction with students.</li> <li>● Foster a supportive and inclusive school environment.</li> </ul>

<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Class Presentation: 20%</li> <li>● Assignment: 30%</li> <li>● Final Project: 40%</li> </ul>

## 1.8 Practice and Internship Module

### Module Summary

Courses	Classroom Hours/Practice Weeks	Chinese Credits	ECTS
Social Practice in Summer Vocation	2 weeks	1.5	2.25
Inquiry of Psychological Quality in Ethnical Regions	2 weeks	2	3
Employment Guidance	16 hours	1	1,5
Internship	6 weeks	6	9
Total	16 hours & 10 weeks	10.5	15.75

程诚柏然harmuorwork@qq.com

<b>Course Name</b>	<b>Social Practice in Summer Holidays</b>
<b>Take In</b>	2022-2023 Semester 1
<b>Credits &amp; Hour</b>	1.5 Chinese Credits, 2.25 ECTS, 2 Practice Weeks
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This practical course requires students to conduct a psychological survey or research report on a specific field or topic independently during the summer holidays of their sophomore year.</li> <li>2. The course aims to provide hands-on experience in applying psychological theories and research methods to real-world issues.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Develop practical research skills in psychology.</li> <li>● Enhance data collection, analysis, and interpretation skills.</li> <li>● Improve written and oral communication through report writing and presentations.</li> <li>● Foster critical thinking and problem-solving abilities in a practical context.</li> </ul>
<b>Study Materials</b>	<ol style="list-style-type: none"> <li>1. Licensed SPSS Software Purchased by the School</li> <li>2. Tencent Wenjuanxing Online Survey Data Collection Program</li> <li>3. R and R Studio</li> </ol>
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Research Report: 70%</li> <li>● Class Presentation: 30%</li> </ul>

<b>Course Name</b>	<b>Inquiry of Psychological Quality in Ethnical Regions</b>
<b>Take In</b>	2022-2023 Semester 1
<b>Credits &amp; Hour</b>	2 Chinese Credits, 3 ECTS, 2 Practice Weeks
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course encourages students to work in groups during the summer holidays of their sophomore year to conduct surveys on the psychological quality of ethnic minorities in regions such as Xinjiang, Tibet, Inner Mongolia, Guangxi, and Ningxia.</li> <li>2. Students will collect data using both paper and online questionnaires, analyze the collected data, and write a research report based on their findings.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Understand the psychological characteristics and quality of ethnic minority groups.</li> <li>● Develop skills in designing and conducting surveys.</li> <li>● Enhance data collection and analysis techniques.</li> <li>● Improve teamwork and collaborative research abilities.</li> <li>● Strengthen report writing and presentation skills.</li> </ul>
<b>Study Materials</b>	<ol style="list-style-type: none"> <li>1. Licensed SPSS Software Purchased by the School</li> <li>2. Tencent Wenjuanxing Online Survey Data Collection Program</li> <li>3. R and R Studio</li> </ol>
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Research Report: 70%</li> <li>● Class Presentation: 30%</li> </ul>

<b>Course Name</b>	<b>Internship</b>
<b>Take In</b>	2023-2024 Semester 2
<b>Credits &amp; Hour</b>	6 Chinese Credits, 9 ECTS, 6 Practice Weeks
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course requires students to independently contact potential employers and undertake a graduation internship under the guidance of a faculty advisor and a relevant supervisor from the host organization.</li> <li>2. The internship must last for a minimum of six Practice Weeks. This course aims to provide students with practical experience in their field of study, allowing them to apply theoretical knowledge in a real-world setting and develop professional skills.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Gain practical experience in a professional environment.</li> <li>● Develop professional skills such as communication, teamwork, and problem-solving.</li> <li>● Understand workplace dynamics and organizational behavior.</li> <li>● Build a network of professional contacts and references.</li> <li>● Reflect on personal and professional growth through regular documentation and reporting.</li> </ul>
<b>Study Materials</b>	<ol style="list-style-type: none"> <li>1. Licensed SPSS and Microsoft Office Suite Software Purchased by the School</li> <li>2. R and R Studio</li> </ol>
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance at Host Organization: 10%</li> <li>● Internship Weekly Record: 30%</li> <li>● Internship Report: 60%</li> </ul>

<b>Course Name</b>	<b>Employment Guidance</b>
<b>Take In</b>	2022-2023 Semester 2
<b>Credits &amp; Hour</b>	1 Chinese Credit, 1.5 ECTS, 16 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course is designed to equip students with the essential skills and knowledge needed to successfully navigate the job market.</li> <li>2. Students will learn how to create professional resumes and cover letters, and will participate in campus recruitment activities during the fall semester.</li> <li>3. The course will cover various aspects of job searching, including networking, interview techniques, and understanding employer expectations.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Develop a professional resume that effectively highlights skills and experiences.</li> <li>● Write compelling cover letters tailored to specific job applications.</li> <li>● Gain practical experience through participation in campus recruitment events.</li> <li>● Understand the job market and employer expectations.</li> <li>● Enhance communication and presentation skills through group presentations.</li> </ul>
<b>Study Materials</b>	<ol style="list-style-type: none"> <li>1. <a href="#">Europass</a></li> <li>2. Licensed Microsoft Office Suite Software Purchased by the School</li> </ol>
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Group Classroom Presentations: 10%</li> <li>● Resume Creation: 35%</li> <li>● Cover Letter Writing: 35%</li> </ul>

## 1.9 Graduation Project Module

<b>Course Name</b>	<b>Graduation Project</b>
<b>Take In</b>	2023-2024 Semester 2
<b>Credits &amp; Hour</b>	10 Chinese Credits, 15 ECTS, 10 Weeks
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course is the capstone of the psychology program, requiring students to conduct independent research under the guidance of a faculty advisor.</li> <li>2. Students must first communicate with their advisor to select a research topic.</li> <li>3. After completing a proposal and successfully defending it, students are allowed to proceed with their research.</li> <li>4. The final thesis must have a plagiarism rate below 20% and be signed by the advisor before the defense.</li> <li>5. Upon passing the defense and completing all other required credits, students will be awarded a Bachelor of Science degree in Psychology. Students must retain their raw data, experimental materials, procedures, scales, and the thesis itself for at least three years for potential audits by the Ministry of Education.</li> <li>6. The department encourages experimental studies. Students can meet with their advisor weekly for face-to-face guidance.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Develop and conduct an independent research project in psychology.</li> <li>● Enhance skills in experimental design, data collection, and analysis.</li> <li>● Improve scientific writing and presentation skills.</li> <li>● Apply psychological theories and methods to real-world research questions.</li> <li>● Demonstrate the ability to conduct ethical research and maintain data integrity.</li> </ul>
<b>Study Materials</b>	<ol style="list-style-type: none"> <li>1. Licensed SPSS and E-Prime Software Purchased by the School</li> <li>2. Tencent Wenjuanxing Online Survey Data Collection Program</li> <li>3. R and R Studio</li> </ol>
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Thesis Defense: 100%</li> </ul>

## 2 Non-Psychology Courses

<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Group Report: 10%</li> <li>● Reflection Papers (one after each class, total of eight): 80% (10% each)</li> </ul>

<b>Course Name</b>	<b>Foundation of Computer II</b>
<b>Take In</b>	2020-2021 Semester 2
<b>Credits &amp; Hour</b>	1.5 Chinese Credit, 2.25 ECTS, 32 Classroom Hours
<b>Main Contents</b>	This course focuses on mastering the essential skills of the Microsoft Office suite, including Word, Excel, and PowerPoint. Students will learn how to use these tools for various academic and professional tasks.
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Develop proficiency in using Microsoft Office applications (Word, Excel, PowerPoint).</li> <li>● Enhance technical skills through hands-on practice.</li> </ul>
<b>Study Materials</b>	Zhang, G. (Ed.). (2020). <i>Fundamentals of University Computing</i> . Science Press. ISBN: 9787030654755.
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Homework Exercises: 30%</li> <li>● Computer-Based Final Exam: 60%</li> </ul>

<b>Course Name</b>	<b>Pedagogy</b>
<b>Take In</b>	2020-2021 Semester 1
<b>Credits &amp; Hour</b>	1 Chinese Credit, 1.5 ECTS, 16 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course provides an in-depth exploration of the principles and practices of teaching and education.</li> <li>2. Students will study various educational theories, teaching methods, and classroom management techniques.</li> <li>3. The course aims to equip future educators with the knowledge and skills to create effective and engaging learning environments.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Understand the fundamental principles and theories of education.</li> <li>● Analyze different teaching methods and their applications.</li> <li>● Develop effective classroom management strategies.</li> </ul>
<b>Study Materials</b>	Editorial Committee, Xiang, X., Feng, J., & Liu, H. (2019). <i>Principles of Education</i> . Higher Education Press. ISBN: 9787040509380.
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Course Paper: 30%</li> <li>● Homework Exercises: 10%</li> <li>● Final Exam: 50%</li> </ul>

<b>Course Name</b>	<b>Chivalry Novels and the Chinese Chivalry Culture</b>
<b>Take In</b>	2022-2023 Semester 2
<b>Credits &amp; Hour</b>	2 Chinese Credits, 3 ECTS, 32 Classroom Hours
<b>Main Contents</b>	This course explores the rich tradition of chivalry novels in Chinese literature and their cultural significance. Students will delve into the historical context and themes of classic chivalry novels.
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Understand the historical and cultural context of Chinese chivalry novels.</li> <li>● Analyze the themes and narrative structures of key works in the genre.</li> <li>● Explore the impact of chivalry novels on Chinese culture and society.</li> </ul>
<b>Study Materials</b>	
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Course Paper: 30%</li> <li>● Original Novel Setting and Plot Summary: 60%</li> </ul>

<b>Course Name</b>	<b>Pharmacy Knowledge and Safe Medication</b>
<b>Take In</b>	2022-2023 Semester 2
<b>Credits &amp; Hour</b>	2 Chinese Credits, 3 ECTS, 32 Classroom Hours
<b>Main Contents</b>	This course provides an in-depth understanding of pharmaceutical knowledge and the principles of safe medication practices. Students will learn about various drug classes, mechanisms of action, therapeutic uses, side effects, and interactions. The course will also cover the importance of patient education, adherence to medication regimens, and the role of pharmacists in healthcare.
<b>Teaching Objects</b>	students will be able to: <ul style="list-style-type: none"> <li>● Understand the basic principles of pharmacology and drug therapy.</li> <li>● Identify different drug classes and their mechanisms of action.</li> <li>● Recognize common side effects and drug interactions.</li> <li>● Develop skills in patient education and counseling.</li> </ul>
<b>Study Materials</b>	
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Quizzes: 30%</li> <li>● Class Paper: 60%</li> </ul>

<b>Course Name</b>	<b>Economic Case Study</b>
<b>Take In</b>	2022-2023 Semester 1
<b>Credits &amp; Hour</b>	2 Chinese Credits, 3 ECTS, 32 Classroom Hours
<b>Main Contents</b>	This course focuses on the application of economic theories and principles through the analysis of real-world case studies. Students will explore various economic issues, policies, and their impacts on different sectors and populations. The course aims to develop critical thinking and analytical skills by engaging students in discussions, problem-solving activities, and research projects.
<b>Teaching Objects</b>	students will be able to: <ul style="list-style-type: none"> <li>● Analyze real-world economic issues and policies.</li> <li>● Develop skills in critical thinking and problem-solving.</li> <li>● Communicate economic findings effectively in both written and oral formats.</li> </ul>
<b>Study Materials</b>	
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Class Participation: 20%</li> <li>● Assignments: 30%</li> <li>● Course Paper: 40%</li> </ul>

<b>Course Name</b>	<b>Marriage Law</b>
<b>Take In</b>	2022-2023 Semester 1
<b>Credits &amp; Hour</b>	2 Chinese Credits, 3 ECTS, 32 Classroom Hours
<b>Main Contents</b>	This course provides a comprehensive overview of marriage law, covering legal principles, statutes, and case law related to marriage, divorce, and family relationships. Students will explore topics such as the legal requirements for marriage, the rights and obligations of spouses, child custody and support, and property division.
<b>Teaching Objects</b>	students will be able to: <ul style="list-style-type: none"> <li>● Understand the legal framework governing marriage and family relationships.</li> <li>● Analyze key statutes and case law related to marriage and divorce.</li> <li>● Discuss the impact of cultural and social changes on marriage law.</li> </ul>
<b>Study Materials</b>	
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Class Participation: 20%</li> <li>● Final Exam: 70%</li> </ul>

<b>Course Name</b>	<b>Principles of Economics (Part II): A Global Perspective</b>
<b>Take In</b>	2021-2022 Semester 2
<b>Credits &amp; Hour</b>	2 Chinese Credits, 3 ECTS, 32 Classroom Hours
<b>Main Contents</b>	This course builds on the foundational concepts of economics, focusing on global economic issues and policies. Students will explore international trade, finance, and development, examining how economic principles apply in a global context. Topics include comparative advantage, exchange rates, global markets, and the impact of globalization on economies.
<b>Teaching Objects</b>	students will be able to: <ul style="list-style-type: none"> <li>● Understand the principles of international trade and finance.</li> <li>● Analyze the economic impact of globalization on different countries.</li> <li>● Explore the role of international organizations in the global economy.</li> </ul>
<b>Study Materials</b>	
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Class Participation: 20%</li> <li>● Assignments: 20%</li> <li>● Course Paper: 50%</li> </ul>

<b>Course Name</b>	<b>The Spirit of Scientists in the New Era</b>
<b>Take In</b>	2021-2022 Semester 2
<b>Credits &amp; Hour</b>	0.5 Chinese Credit, 0.75 ECTS, 8 Classroom Hours
<b>Main Contents</b>	This course explores the evolving role and spirit of scientists in the contemporary world. Through a series of lectures, students will learn about the contributions of modern scientists, the ethical and societal implications of scientific research, and the qualities that define a scientist in the new era.
<b>Teaching Objects</b>	students will be able to: <ul style="list-style-type: none"> <li>● Understand the historical and contemporary contributions made by scientists.</li> <li>● Explore the ethical and societal impacts of scientific research.</li> <li>● Identify the qualities and values that define a modern scientist.</li> </ul>
<b>Study Materials</b>	
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Homework Assignments: 40%</li> <li>● Final Exam: 50%</li> </ul>

<b>Course Name</b>	<b>Revolutionary Spirit of the Communist Party of China</b>
<b>Take In</b>	2021-2022 Semester 1
<b>Credits &amp; Hour</b>	1 Chinese Credit, 1.5 ECTS, 16 Classroom Hours
<b>Main Contents</b>	This course examines the revolutionary spirit that has shaped the community of the Chinese nation. Students will explore the historical events, key figures, and ideological movements that have contributed to the development of a collective national identity. The course will also discuss the ongoing impact of these revolutionary ideals on contemporary Chinese society and culture.
<b>Teaching Objects</b>	students will be able to: <ul style="list-style-type: none"> <li>● Understand the historical context and significance of revolutionary movements in China.</li> <li>● Analyze contributions of key figures and events to the development of national identity.</li> <li>● Explore the ideological foundations of the revolutionary spirit.</li> </ul>
<b>Study Materials</b>	
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Chapter Exercises: 40%</li> <li>● Final Exam: 50%</li> </ul>

<b>Course Name</b>	<b>Great Spirit of Combating the COVID-19 Epidemic</b>
<b>Take In</b>	2021-2022 Semester 1
<b>Credits &amp; Hour</b>	1 Chinese Credit, 1.5 ECTS, 16 Classroom Hours
<b>Main Contents</b>	This course examines the collective efforts and spirit demonstrated during the fight against the COVID-19 pandemic. Students will explore the various strategies, policies, and actions taken by different communities and governments to combat the virus. The course will highlight the importance of resilience, solidarity, and innovation in overcoming global health crises.
<b>Teaching Objects</b>	students will be able to: <ul style="list-style-type: none"> <li>● Understand the global impact of the COVID-19 pandemic.</li> <li>● Analyze the strategies and policies implemented to control the spread of the virus.</li> <li>● Discuss the social, economic, and psychological effects of the pandemic on communities.</li> </ul>
<b>Study Materials</b>	
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Chapter Quizzes: 30%</li> <li>● Final Exam: 60%</li> </ul>

<b>Course Name</b>	<b>Application of Modern Educational Technology</b>
<b>Take In</b>	2020-2021 Semester 2
<b>Credits &amp; Hour</b>	3 Chinese Credits, 4.5 ECTS, 56 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course explores the integration of modern educational technology into teaching and learning processes.</li> <li>2. Students will examine various digital tools and platforms, their applications in different educational settings, and the impact of technology on student engagement and learning outcomes.</li> </ol>
<b>Teaching Objects</b>	students will be able to: <ul style="list-style-type: none"> <li>● Explore different digital tools and platforms used in education.</li> <li>● Analyze the impact of technology on teaching and learning processes.</li> <li>● Develop skills in integrating technology into educational practices.</li> </ul>
<b>Study Materials</b>	
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Class Participation: 20%</li> <li>● Assignments: 10%</li> <li>● Final Exam: 60%</li> </ul>

<b>Course Name</b>	<b>Advanced Mathematics C</b>
<b>Take In</b>	2020-2021 Semester 1
<b>Credits &amp; Hour</b>	3 Chinese Credits, 4.5 ECTS, 56 Classroom Hours
<b>Main Contents</b>	<ol style="list-style-type: none"> <li>1. This course introduces students to the fundamental concepts of calculus, including limits, derivatives, integrals, and the Fundamental Theorem of Calculus.</li> <li>2. Students will learn to apply these concepts to solve problems in various fields such as physics, engineering, economics, and biology.</li> <li>3. The course emphasizes both the theoretical understanding and practical applications of calculus.</li> </ol>
<b>Teaching Objects</b>	<p>students will be able to:</p> <ul style="list-style-type: none"> <li>● Understand the concept of limits and their application in calculus.</li> <li>● Learn how to compute derivatives and understand their significance in various contexts.</li> <li>● Master the techniques of integration and their applications.</li> <li>● Use the Fundamental Theorem of Calculus to connect differentiation and integration.</li> </ul>
<b>Study Materials</b>	<p>Tongji University Mathematics Department. (2014). <i>Advanced Mathematics (Vol. 1) (7th ed.)</i>. Higher Education Press. ISBN: 9787040396638</p>
<b>Assessment</b>	<ul style="list-style-type: none"> <li>● Attendance: 10%</li> <li>● Assignment: 15%</li> <li>● Midterm Exam: 15%</li> <li>● Final Exam: 60%</li> </ul>
